Dear FCC:

I am writing to express concern over any FCC decision that would hinder K-LOVE radio's operations. It has come to my attention that the prioritization of LPFM stations could result in the "replacement" of many translator stations upon which K-LOVE depends.

The K-LOVE stations in my community (92.1 & 106.3) provide a valuable service to my family at a level of quality not currently available via any "local" stations. My family and I also enjoy the opportunity to listen to familiar programming when we travel, which K-LOVE's use of translator stations also supports.

Sincerely,
Jeff Boyd
